TROPHY BASS FISHING

Iconic Lake Guerrero is a Trophy Bass Fisherman's dream come true. More than 10+ bass per fishing effort are caught here than in almost any other public lake in North America. East cast is a real change to catch the wall hanger of a lifetime. That is, if you can take your eyes off the scenic beauty and wildlife surrounding you. Your guide has many years' experience and knows how to treat a guest. Our high performance boats get you around safely in comfort.

WINGSHOOTING

Tamaulipas Mexico offers some of the best Whitewing Dove and Quail hunting in the world with the season running from August to February. Hunting wild Bobwhite Quail over well-trained and handled dogs, finding 15-25 coveys a day, is almost unheard of today, but here it's expected not the exception! The shoreline of Lake Guerrero and its adjacent habitat has one of the largest nesting populations of Whitewings anywhere and the surrounding fields hold them through the season. Typically hunters shoot over a case of shells per outing.
